TOWN CRIER - WILMINGTON, MASS. MAY 11, 1967

PRICE 10 CENTS

New TM - Morris

SEEMS TO BE AN ALL RIGHT GUY

Sterling C Morris of St. Albans Vermont, who has been appointed Town Manager of Wilmington spent Tuesday and yesterday in this town, and, according to the few who have met him, seems to be an 'allright guy'.

The St. Albans City Manager will receive \$14,000 a year, plus \$900 a year expenses. He is expected to assume his new office on May 29th.

Not very many Wilmington residents met Mr Morris during his two day stay in town. Most of the

time was spent in company with Temporary Town Manager Harold E Melzar, on strictly business matters.

Morris attended the luncheon meeting of the Rotary Club yesterday, as the guest of Selectman Charles H. Black. He is a member of the St. Albans Club and is a past president of that club.

In addition to an air of having 'approachability' the new Town Manager seemed to strike most of

DOG OWNERS' NOTICE

The Board of Health will hold a clinic for the immunization of dogs at the Fire Department Building, Church Street.

IMMUNIZATION CLINIC

Saturday, May 20 - 1:00 pm to 4:00 pm

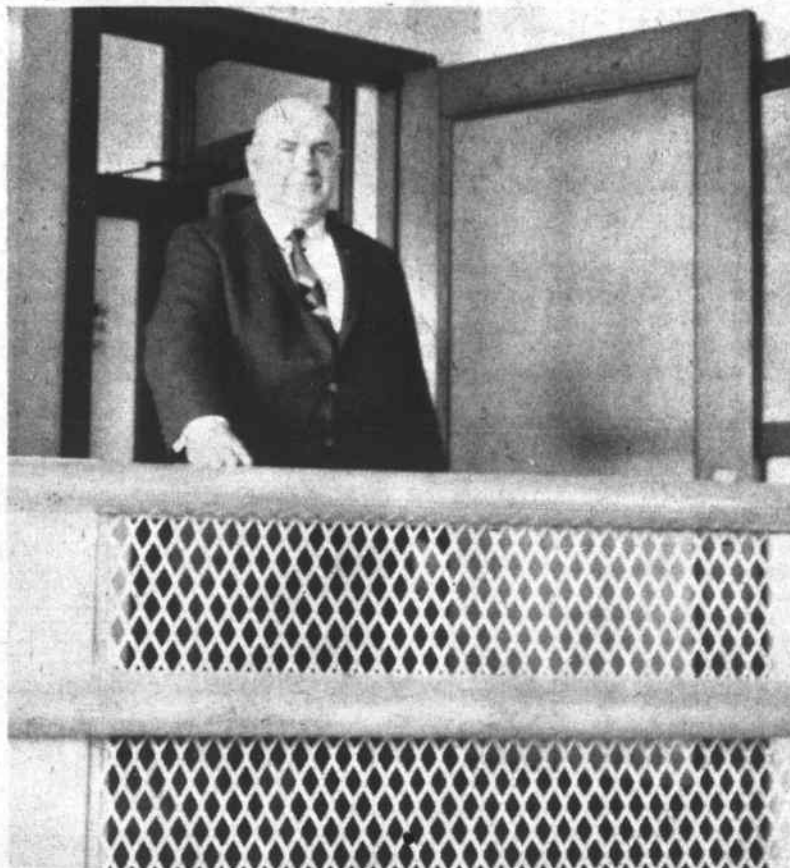

Fire Station, Church Street

All dogs must be vaccinated each year to be effective against rabies.

All dogs must be on leash. Dr. Harvey Skolnick will be in charge of the clinic.

All Dogs Licensed or Not Should Be Immunized

Innoculation Fee — \$1.25

FENCE FOR THE PARK STREET BRIDGE: Rep. Fred F. Cain of Wilmington, photographed with a sample of the fence that will be used by the State Department of Public Works, for the Park Street bridge over Route 93. The state will erect the fence for that portion of the bridge that is over the Interstate highway, and the town may, if it chooses, erect connecting fences at each end, at its own expense.

Propose Drain Pipe back of Redwood Terrace

Either the present developer of the Kenwood Avenue or his predecessor will receive a proposal from Town Engineer Arthur Harding, in the next few days, for the installation of a drain pipe, parallel to Woburn Street, in the back yard of homes on Redwood Terrace, and designed to relieve the water problem in that area.

Half a dozen residents of the area heard and approved of the proposal Tuesday night, in the meeting of the Wilmington Planning Board.

The proposed drain would be of buried pipe, and would run to the street drain on Kenwood Avenue. It will be necessary to obtain 'releases' from all the householders involved, on Redwood Terrace. The meeting, the third attended by the residents of the area in recent weeks, held up discussion of other Planning Board matters until 10:10 pm.

The residents were present for the meeting before 8 pm. It was the third meeting of the Planning Board that they had attended in as many weeks. Town Engineer Arthur Harding showed photographic maps of the area, taken in 1955,

and how the standing water of that day was located on the present day maps.

The drains installed by the developers, he said, were designed to drain the streets, and were doing that.

He told the group several times that the Planning Board had nothing to say about what a developer does to the individual lots - the developers can dig six foot deep holes, or plant trees or shrubs, or anything else, Harding said.

Look Alike As Two Peas, But . . .

Any difference between a cut-rate policy and one issued by an old, established company shows up only after a loss. A harsh settlement usually falls upon those least able to afford it.

When you buy insurance, buy the best. That's the kind of treatment you want in case of misfortune.

Bedell Brothers Insurance Agency, Inc.
402 Main St. 658-9116 Wilmington, Mass.

Trailing 5-2 in the last inning of Wednesday's game, Wilmington High's Jim Brewster led with a single and then Andover's 'defense' took over.

They proceeded to throw wild every ball they didn't boot and when the dust had cleared the Wildcats and hurler Billy Steber had them selves a 6-5 win.

On Friday, Big Ed Gillis came up in the eighth inning and stroked a single to score that Brewster kid and break a 6-6 deadlock. Pitcher Don White got the credit for the victory over host Billerica.

Dayvee action during the week Dave O'Connell twirled a one-hitter and Jerry Land socked a couple of homers for Coach Keady's charges.

Wildcat tracksters split their two meets last week. On Wednesday the Blue and White outhustled Billerica 76-37 on the strength of nine first place finishes. Honors went to Rollie Wood, the discus; Eddie Thomas, high jump; Hank Devlin and Dick Doucette, high and low hurdles respectively; Mike Wright, 100 yard dash; George Phillips, the 220; Glen Cox, half mile; Dave Knight, the mile; Frank Harrington, two mile; and the relay.

On Friday Andover made Coach Muir's boys run uphill, or so it seemed, as the WHSers were trampled 95 2/3 to 17 1/3. Rollie Wood was a very close second in his specialty, and Glen Cox, forced this year by a team depth problem to run only half his favorite distance, took the 880 in the extremely impressive time of 2:05.

It is unfortunate that a league rule prohibits competition in more than one distance event. Otherwise the hardworking Cox could be really be showing college scouts something.

Frank Harrington, another displaced miler, turned in his best time ever in that event while competing for St. Williams in a CYO meet at White Stadium.

UNRESERVED

Why is it everytime a Red Sox pitcher gets through the fourth inning without allowing a single, we must relive in redundant detail the pitch by pitch histrionics of Mel Parnell's no-hitter?

Bob Flores, Bob Madigan and Lenny Gustus have been picked to play for the Town Basketball League's Chargers, next year. . . The Charles River Softball team, bolstered by the addition of four members of last year's championship Newhouse Builders team, knocked over the Legion in the Town Softball League's Lid Lifter, 14-5. A pair of Johns, Robbins and

Amaro, provided the thunder for the Rats with booming home runs. Action continues nightly at an improved Town Park.

Boston Shamrock Rover soccer is but a few weeks away. . . .

Wilmington High's senior class can be rightly proud of its many outstanding scholar-athletes in the likes of Dick Ely, Mike O'Rourke, Dave Boerl, etc. The junior class can, conversely, hang its collective head. In the competition for Boys' State not one athlete had the grades to qualify.

Obviously, these third year athletes registered in the college prep course assume that scholarship wielding deans are going to come-a-wooling students with C's, D's and F's decorating their report cards just because they win letters in sports.

Smarten up, kiddies. This isn't Alabama!

If football isn't the national pastime why did they Channel 7 beam Notre Dame's alumni game live, Saturday? The Irish will have a defensive line next fall averaging 261 pounds and possibly the nation's top two quarterbacks in O'Brien and Hanratty. It doesn't look like Ara will be cultivating any ulcers for a while. . . .

Avco has a fine club in Lowell's slowpitch league and plays its home games evenings at its Wilmington field.

Little League is underway at Rotary Park with minor leaguers clad in complete uniforms for the first time this year, instead of the customary jersey and cap. . . .

Wilmington-Tewksbury Council K of C had two of BC's best athletes at their annual communion breakfast in the persons of Terry Driscoll and Jerry York. . . .

Why are Tony C and Carl Yaz the hydramatic hitters? Answer,

'no clutch'. . . . If Hank Brown can dribble, pass and shoot from the outside, then he has a great chance to make the Celtic's depleted backcourt. The Chelmsford jumping-jack has the quickness, spring, and defensive ability. He has been approached by the Dallas Cowboys to play cornerback. Are you listening, Mike Holovak? . . . Don Kent and Bob Copeland have been most unkind to fishermen in these parts of late. High water levels and low temperatures are not at all too conducive to big catches. . . . What do you think Lorenzo Bandini's family thinks of his choice of sports?

Selectmen's Meeting

The Selectmen's meeting, Monday night, opened with a bang. Tom Marden of Silver Lake Avenue is still trying to get an answer for the land adjacent to his house. The Assessor has now established a price with restrictions of no structures at \$550, and with structures at \$895. Mr Marden would now like to work out a lease arrangement with the town, which Chairman Miceli will investigate with the Town Counsel.

A Daniel Gillis, chairman of the Planning Board was present with several of the owners of land in the Kenwood Ave area. The consensus of opinion was that Mr Gillis and his board were working with the Town Engineer and the contractor to work out a sensible arrangement to alleviate the water problem. Considering the high emotion involved things were going along very well, with the people cooperating, and it was reported that there in Tuesday night's Planning Board meeting.

The statement was made that there will be a modification of the plans, as they are now, with an invitation to the builder to co-operate. Gillis and Miceli assured the people of the area that they realized there was a crucial problem, but that the steps as designated took time. Gillis reported that the Planning Board had discussed the situation at the convention of State Planning Boards on Saturday.

The discussion turned to open excavations left by the contractor. Miceli said that there were two left open on Dell Drive which had filled with water and that the board could and would take action, by instructing the builders to erect barriers, subject to a fine of \$20 a day. The building inspector would be so notified, since he was the enforcing officer.

Mr Miceli assured those in the meeting room that no was trying to sidetrack them, and that he had called a meeting of the chairmen of all the town boards for Friday to see if they could work together.

Niles then resumed the discussion of drainage, near West Street. Danny Gillis of the Planning Board said he hoped to have information for the Planning Board meeting. He remarked that water from Reading was draining into the swamp,

and that Ken Maynard, who had been an engineer on the original plans, had been contacted.

Gillis told the Selectmen that he had just found out that a drain under Route 93 was five feet too high!

Mrs Drew said that the water from West Street was up two or three feet, and in back of Crest Avenue it was up to a level with West Street.

Mrs Casey again brought up the subject of the Aldergate estates, Kenyon Ave etc., and said that the contractor had put in a footing into a hole on Friday, water and all. Miceli assured her that he would recommend fencing to keep the children out, and Mr Black brought up the point that he didn't believe a road bond should have been released without the street having been accepted by the town.

Niles reported that he had viewed the damage at the Nichols Street bridge, which the B&M had since repaired, at the same time he had viewed the site with Rep. Cain with respect to the new bridge, which will be about 50 feet south of the existing one. Cain, he said, had told him that the plans were progressing.

Everyone had a good laugh when George Boylen explained to the press that he and Paul Niles had been discussing painting the accesses to all schools red - and he was not referring to signs or indicators of any sort. He was referring to the language used professionally of circling the plans for schools with its surrounding areas in red, indicating the government financing responsibility and including therein the sidewalks, etc.

Mr and Mrs Ralph Barden had an application for a license to sell flowers in front of their store. It was granted.

Mr McEvoy from Klernan Ave was present, and spoke of the two complaints registered with the Selectmen of a business operation in reclaimed automobiles, said to be going on in an residential area. Miceli said that he understood that one night last week someone had tried to block the street, when an owner came to get his car, and the fellow had driven over lawns to get it (his car) out of the area.

Miceli also reported that he had viewed the area, and that there was a houseboat in the back of the yard. Boylen told the board he couldn't understand this at all. It seemed to be strictly a violation of the Zoning By Laws.

TM Harold Melzar had a memo from the Chief of Police, which was reported to say that a letter had supposedly been sent to the person supposed to operating the auto-reclaiming business, and that the person was not supposed to have received the letter. Yet, the Selectmen were told, the individual had called the Chief of Police, using a telephone number in that letter. The call was said to have been an effort to get in contact with Mr Miceli, and the individual had been told that Miceli was not available in the daytime because he worked.

Melzar said he was turning the Klernan Avenue business over to the Building Inspector, to enforce.

Before the close of the meeting Paul Niles moved, and it was voted to offer congratulations to Mike O'Rourke, and his family, High School senior, who has been accepted at the US Naval Academy at Annapolis.

GIRL AND BOY SCOUTS HELP LWVV DISTRIBUTE BOOKLET

The League of Women Voters has recently completed distributing its new booklet 'Focus on Libraries', which gives information on the Wilmington Public Library, Federal Aid, completed Planning Studies, and American Library Standards for Small Libraries. These booklets were distributed throughout the town with the help of twenty-two Girl Scouts and Boy Scouts. If there is any household which did not receive one, a copy may be obtained from Mrs Harold Chase, 12 Marcus Rd.

The League wishes to add one bit of additional information to the booklet. On page 9 there is a paragraph about the amount of Federal Aid that is allotted for the building of libraries. This information applies only to the amount that is allotted to the States, and does not apply to the amount that is available to the local communities. In Massachusetts, the ratio in fiscal year 1967 is 41.79% federal to 58.21% state funds. However, the State Board of Library Commissioners disburses this money to most local communities on a ratio of 25% from federal funds to 75% local funds in order to make the federal money stretch further and to give assistance to more communities. Therefore, the most that Wilmington could hope to receive in Federal money at this time would be 25% of the total cost of a new library building.

CRUSADER NEWS

Don't forget the dog show boys and girls and bring your dogs with you on a leash. Come down and let your dog try to win a blue ribbon. The place is Wilmington Ford at 2:00 pm on Saturday.

Crusaders drill practice will be held on Sunday at 11 am at Rotary Park. Music practice will be held on Tuesday at 7 pm. at the Woburn Street School.

Swordsmen drill practice will be held on Sunday at 11 am at the Rotary Park. Music practice will be held at the Grange Hall at 6:30 pm on Thursday.

The boys and girls of the Crusaders and Swordsmen will be canvassing the town with booster sheets for the Ad book for the July competition. Won't you help some boy or girl win a portable T.V. The one that receives the most boosters will win it.

LOCAL HADASSAH CHAPTER FORMED-AFTER MEETING

At a meeting held in Burlington on May 3, the Shawshen Valley Chapter of Hadassah was formed, to serve the towns of Billerica, Tewksbury, Burlington, Wilmington and Bedford.

Mrs Sydney Locke of Burlington was named Chairman. Pro Tem of the Chapter. Mrs Robert Damon of Burlington, was appointed chairman of the nominating committee to select a slate of officers for election in the Fall.

This first Hadassah meeting of Jewish women in the area had as its guest speakers, Mrs B Robert Levin, President, New England Region of Hadassah and Mrs George Kramer, of the Regional Organization Committee, who told the group of the work being done in Israel by Hadassah and of the many functions of the organization in the United States.

DRAIN PIPE (Fr. P. 1)

The developer, he told the group, could have sold all the lots, individually, to as many contractors or builders as he wanted, in which case the people would have to be dealing with individual builders.

Harding also spoke of the necessity of upkeep, in drains. He told how he maintains the drain in front of his own home, as a private citizen, and said that many problems arise from grass clippings, and debris getting into the drains.

After the discussion had been going on for an hour Jim Miceli, chairman of the Board of Selectmen appeared. He stood silent for a long time, and then indicated that he thought the discussions should include possible back yard drainage for the homes on Kenwood Avenue.

This occurred while a discussion was going on about the possibility of pumping cellar water into the street drains, a move that was somewhat opposed by Madelyn McKie on the grounds that if it is to be done in this place it will have to be done in others. Many streets in Wilmington, she said, have water problems, in the cellars of the nearby homes.

Miceli's proposal to include the Kenwood Avenue area in backyard drains brought up a lot of discussion, one of those speaking being Walter McNamara of Kenwood Ave who has been pumping water from his cellar into the street drains.

When McNamara realized that to insist on answers at this time for the Kenwood area, and thus slow up any possible resolution of the Redwood area problems, he withdrew.

Miceli's description of the problems, indicated with a sweep of his hand across the plan for the area, was that 'this is a unique situation'.

Chairman Danny Gillis told the group that the developer has conformed 'in all details' to the Planning Board specifications, and in answer to a half suggestion that the case should go to court he said that 'if we took him to court the Judge would ask us Why?'

After the agreement to have the Town Engineer talk with the developer about the possibility of installing a back yard drain along Redwood Terrace the group left.

There was no discussion as to who should maintain the pipeline, if it is installed. The proposed pipeline, (12 inches) would be about 1000 feet long.

Gillis said that if the Town Engineer needed assistance, in his discussions with the developer that he, Gillis, would help.

The Regular Meeting
As a result of the long discus-

sions on the Kenwood Avenue drain age problems, the regular meeting was cut short, but still lasted until after 11 pm.

The Town Engineer reported that the new road into the Tambone-Barbo development, off Concord Street is going 'like hell', and that the DeCenso construction of the road in the industrial development in South Wilmington is going 'full speed ahead'.

Smithcraft has begun clearing land for its buildings in the De Censo area, he said, and A P Rounds is putting binders on a new street in Hathaway Acres.

A discussion was held concerning new proposals for SubDivision Regulations.

Emil Berger (absent from the meeting) had proposed that Wilmington consider the Massachusetts Standard Regulations.

Town Engineer Arthur Harding was in favor, and Al Rounds said that they had been warned not to accept these regulations, because if anyone asks for a copy he is entitled to it, and copies were not available. Sam Snow, a planner previously employed by the board had warned them on this, he said.

Harding believed it would be possible to get a copy, and have about 50 copies made, edited to conform to Wilmington needs. It would probably amount to fifty typewritten pages, double spaced, which could be stenciled, and made available for such distribution as needed.

Gillis suggested that 50 or 100 copies be made, and sent to local builders for their study. Then, in a month or so, there could be a meeting where the builders would have a chance to comment on the

proposals, - all this being before any formal hearing was to be held.

Rounds suggested that perhaps the board would like to find out if any other town had had this idea, and Mrs McKie recalled that Lexington had already done this. It was decided to get a copy of the Lexington regulations, if one has not already been acquired.

Mrs McKie suggested that an inter-office memorandum be sent to the Building Inspector asking if the sign regulations can be enforced, and if not what would he suggest.

Harding told the Planning Board that the first order of business with the new Town Manager, as far as he is concerned, is to see if the program proposed nearly a year ago for a program consultant, be instituted.

Al Rounds, as the meeting was about to conclude, expressed himself on the proposed drainage at Redwood Terrace. His outlook was gloomy. 'I don't think this (the drain pipe) is going to work' he said. 'The proper way is to have a swale, for the water, so as to allow it to flow', and then added: 'But people won't work anyway to keep such a thing in operational condition'.

SEAMAN RECRUIT LAURENCE
W CURTIS COMPLETES NINE
WEEKS BASIC TRAINING

Seaman Recruit Laurence W. Curtis, USN, 19, son of Mr and Mrs E. J. Curtis Sr, of 156 Andover St has been graduated from nine wks. of Navy basic training at the Naval Training Center here.

In the first weeks of his naval service he studied military subjects and lived and worked under conditions similar to those he will encounter on his first ship or at his first shore station.

In making the transition from civilian life to Naval service, he received instructions under veteran Navy petty officers. He studied seamanship, as well as survival techniques, military drill and other subjects.

Nosey Nancy

Send your announcements to Nancy, Box 208 Wilmington, or call 357-7141, or 658-4865 after five if I'm not there, I'll call you.

Sorry about last week, gals. The paper ran out of space, and the boss didn't tell me, or I would have called you about your notices not being done. I can understand about his being crowded for space, but sometimes it isn't fair to you. Hope that there wasn't too much inconvenience, but by the way the phone was ringing I have got a good picture of how the paper is read in all the areas of town. I appreciate your kind words, and thanks for all your cooperation and kindness!

Lorraine King and Rena Hamilton are two young ladies who have near birthdays. Lorraine celebrates hers on the 28th of April and Rena on the 29th., and this year was the sixteenth.

So they combined this year and had a sixteenth birthday party together, at Lorraine's house, 57 North Street. Their friends tell me it was a wonderful party, one not to be forgotten.

The Scholars for Dollars Committee, headed by Mrs Alma Williams of Grove Avenue had a drawing the other day and winners were Mrs L Vercelle of 987 Broadway Somerville (radio clock), Mrs F. J. Leverone of 20 Grove Avenue (Hamilton Electric Knife) and Millie Allen of 61 Pinedale Road, Tewksbury, a \$10 paper printed in U.S. Certified Green.

Alma says Thanks to Jay's TV for the electric knife and the \$10. The radio was donated by the committee.

Dave Boeri of Lloyd Road is one of Wilmington's most active senior class students, and this year he is taking part in the Teen Agers March for Leukemia, headed by Danny Thomas. The march will be on Saturday the 20th and Sunday the 21st. Anyone wishing to take part should call Dave at 658-3707, or call the Boston headquarters at CO 6-6627.

I have a message from June Thiller of Burlington Avenue. She wants to find out if anyone in Wilmington is interested in starting another TOPS (Take Off Pounds Sensibly) Club. Call her at 657-7119 if you are interested.

Don't forget the Mother-Daughter Breakfast on May 14, at 8, given by the Methodist Men at the Church. This should be something. The 17th Annual Protestant Laymen's Communion and Breakfast will be held on Sunday May 21 with Communion at 7 am and Breakfast at 8 am at the War Memorial Auditorium in Boston. The cost is \$1.75 and reservations can be made with Henry Flight or Lester White. Also Rev Miller will be on hand all summer for a 7:30 pm middle of the week Worship Service in the Sanctuary of the Church, for those who are away over the weekend.

Rev. Willis Miller and John Hamilton, Guidance Director, at the High School cooperated this week in delivering a program to the youngsters on the No. 3 Health Problem in the United States. I was able to listen to the program through the kindness of Mr McMahon and it was really something worthwhile. This should be given to all secondary schools and the parents, in my opinion. I understand that Mr Hamilton has more in the socio-economic line that he will present shortly. Think that we are very fortunate in having such progressive teachers and ministers in our area. More power to these type of individuals. They really show that they have the human interest in the young folks. Many thanks for the coming generation and particularly from our clan!

The Rev. Peter Day Hanson, the assistant pastor at the Methodist Church will be leaving us in June when he is completing his work at Boston University. We will all miss him and his warm friendship!

We hear that at the Grand Assembly of Rainbow in Springfield recently Charlie Sicard and Helen Bryant awarded the Grand Cross of Color.

We have heard from Mrs Morrice, Bob went to California after his basic training (that's Bob Morrice from Middlesex Ave.) He is in the Naval Air Corps.

W.R.A. hears Sewer alternatives

Among the items of business for the Wilmington Redevelopment Authority, Monday night, was a discussion of the alternatives for connecting the proposed Eames Street Industrial Park with the sewer trunk on Woburn Street, at the Woburn line.

Charles Kirkian, of Anderson Nichols & Co of Boston had prepared cost estimates for two alternate routes.

The first alternative would be to cross the land of the National Polychemicals Company, using an easement, and laying a 10 inch sewer main to the existing MDC sewer. Kirkian figured the costs for the route at \$109,600, including easement costs.

The second route on which he submitted figures was to use the planned route for the 30 inch sewer main which someday may go to Wilmington Square, via the tracks of the B&M RR, as far as Eames Street, and thence by Eames Street to the project.

By the rules laid down by the state, the authority he said would be unable to lay down more than a ten inch pipe, needed for the Eames Street project.

Ken Weiner, Planner for Candeb, Fleissig and Associates, who are consultants to the Authority, said that it could be possible to install the 30 inch main for that portion of the sewer line along the railroad, instead of a ten inch main, but that there were questions as to how much the state would allow, in a monetary way, for payment of such a main. The Town, he said, would have to pay part of the costs, and it could even be at a nine to one ratio. He painted a picture of the state authorities having a tough attitude towards such co-operative enterprises.

Kirkian's costs for laying a ten inch main via Eames Street and the railroad bed, to connect with the MDC sewer were \$1830,000, without land costs, if any. If a thirty inch sewer main were laid, he said, instead of a ten inch main, the costs would be about \$10,000 more.

Kirkian had also investigated the flow of the Aberjona River, which becomes the Mystic River further down stream, using studies made by Mr Olson, City Engineer of Woburn, and other sources. The Aberjona starts in the small pond at the foot of Woburn Street, and flows through Woburn to Winchester, where it becomes the Mystic River.

His studies on the Aberjona, Kirkian said, had convinced him that the Authority would have no problems on the disposal of surface water from the Eames St. project. 90% of the surface water flowing towards the Aberjona from the vicinity of the project now disappears, and never reaches the Aberjona.

Kirkian said he had completed about 90% of his work for the authority, the work being 8% of the total project work in the planning stage.

He also had plans for the proposed road into the project, showing alternatives, i.e. open ditch for surface water vs. storm drainage, and with or without a five foot sidewalk on one side. His plans also included a proposal to widen Eames Street to a total width of 60 feet, at the project site. The present width is 27 feet. The extra 33 feet would make it much easier for trucking, he said. The board is considering the possibility of widening Eames Street to a sixty foot width all the way to Main St.

Ken Weiner told the Authority of his proposed regulations concerning the erection of buildings on the site, and got involved in a long discussion with Bob Evans concerning details.

Weiner said that the main details of his proposed regulations were from the regulations used by

Cabot & Cabot Co., and the Nordbloom Company, Boston developers, with adaptations to meet the local needs and the Wilmington Planning Board regulations.

The controls, when established, would be for a thirty year period. Weiner said this was to cover the eventuality that the town's by-laws became changed.

Evans, in his disagreement with the proposals said he would like

to see the regulations for the proposed park based on those in effect in Natick. The Natick Law, he said, was one of twenty or thirty that had been studied by the Wilmington Chamber of Commerce, and was the one that the Chamber had deemed to be the best.

Evans did not get much support from the other members of the Authority.

Please... Will the gentlemen who are using the walkway between Joe's & Alyce's in the Square for things other than a walkway, please wait till you get home!

Thank you

MAGNATHERM

T.M.

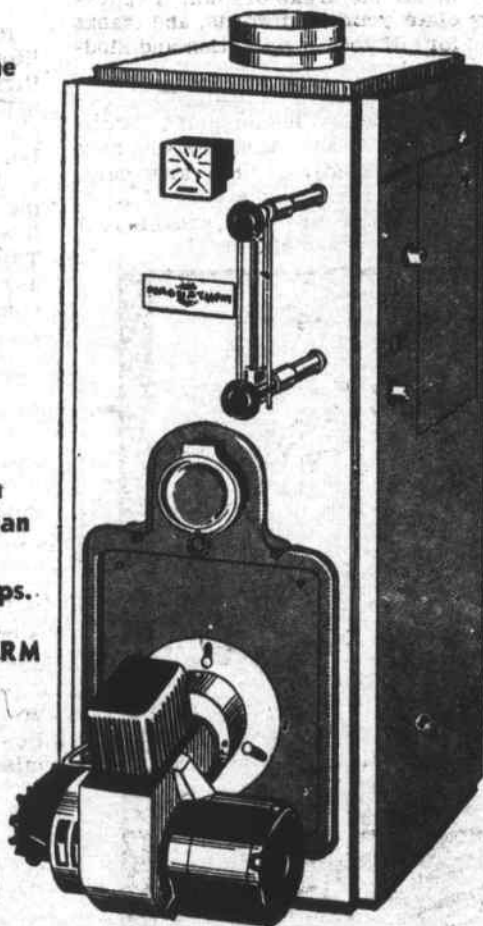

means "GREAT HEAT"

... and that's exactly what you get with this scientifically designed heating equipment! You get the care-free, problem-free comfort you want. Dollar for dollar, this is the best heating equipment buy you can make! Now's the time to settle all your worries about your heating plant for years to come. Call our heating experts TODAY — avoid the last minute "panic" rush next fall!!!

OIL-FIRED BOILERS

For Steam and Hot Water Heating Systems

- Blue Hammertone Jacket
- Automatic Controls by Honeywell
- Lifetime Cast-Iron Boiler
- JET-AGE Combustion Chamber Can Withstand 2300° Temps.
- Magna-THERM Oil Burner Nozzle Delivers Atomized Fuel Oil With Fine-Watch Accuracy

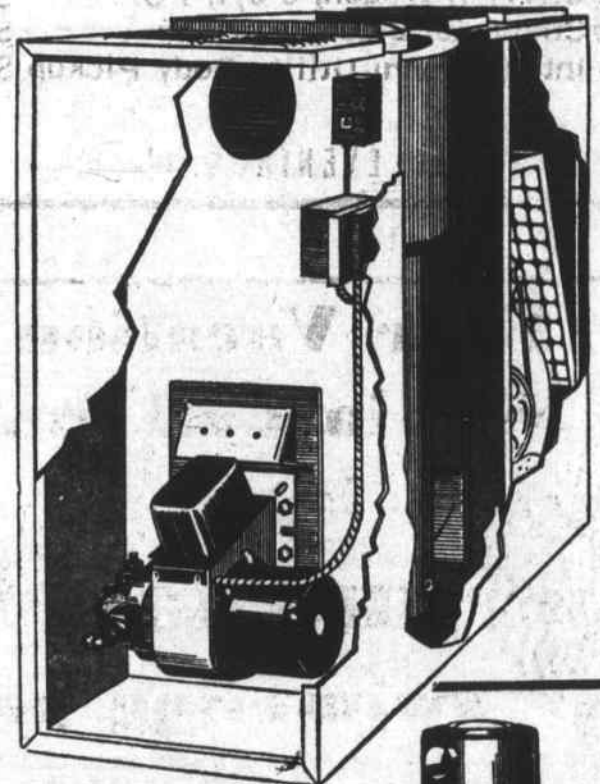

New "Slo-Flo" baffles extract more heat — hot gases spread outward and upward to pass slowly between heat absorbing baffles on the water-backed cast iron sections. This insures low stack temperatures, low heat loss. A great piece of equipment at a moderate cost! More heat for every dollar!

Dean C Cushing may be Chamber of Commerce speaker

The Board of Directors of the
Wilmington Chamber of Commerce
have invited Dean Cushing, Exe-
cutive Vice President of the Reta
Trade Board of Boston to speak at
the next General Meeting of the
Chamber of Commerce, which is
planned for June 13th at the Oar
and Anchor, in North Reading.

Mr Cushing was Wilmington's
first Town Manager, back in 1951.

The members of the chamber
also spoke very favorably, but un-
officially, of the current drive for
funds for a new YMCA building
to be erected on the Woburn -
Burlington line, and to serve the
region generally.

They were told that the building
is to be known as the North Subur-
ban YMCA of the Boston YMCA,
and that \$315,000 is to be raised
in the communities which it will
serve. The drive for funds is now
going on.

Don Greer, one of the Directors,
described it as a 'Good Buy' for
the area, and spoke of how Wil-
mington youngsters are now using

YMCA facilities, boarding a bus
in front of Weinberg's to go to
those facilities, such as are at
present in Woburn.

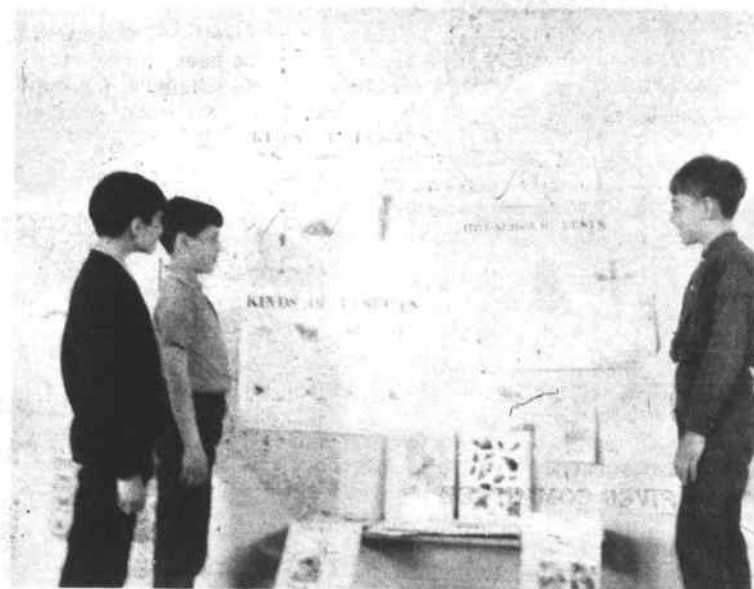

When the new Y is completed,
Greer said, the present Woburn
Y will be sold.

Sustaining memberships in the
Y, according to Greer and Bob
Evans, while not being a direct
support for the new building, may
be bought for \$10 a year.

Raymond MacNamara told the
directors that the Wilmington Re-
development Authority is getting
along well in its planning stage
and that the Planning Stage is now
about 60% complete.

The directors were told that
there are reports of plans for a
new 'regional hospital' for the
Woburn - Wilmington - Winches-
ter area. The reports could not
be confirmed.

It was voted to submit a pro-
posed amendment to the bylaws
to the Wilmington Chamber of
Commerce, at the next meeting.
The amendment concerns the dis-
posal of funds in the chamber's
treasury.

SEVERAL HUNDRED EXHIBITS ARE EXPECTED: on May 12th
at the Grade 1-6 Science Show, to be held in the High School gym
between the hours of 7 and 9 pm.

Above are three of the Junior Scientists, William Sinopoli,
Stephen Tshilis and Mark Smith, of the Glen Road School, with their
exhibit on Kinds of Insects.

She is the secretary for President of New England Telephone Company, Allen G Barry. Shown in the picture, seated, L to R, Jean I Mac Rae of Somerville, and Carol A Casey, signing up for the new Freedom Shares, the first residents of Greater Boston to sign up for the new Shares, which pay 4.74% Standing are Allen G Barry, president of NET&T, and Army S/Sgt Richard W Rose of Somerville, who recently returned from the Vietnam War.

HENRY COLOMBO ON CHARLES RIVER COMMITTEE

Henry Colombo of 41 Brentwood Avenue has been appointed to the citizen's committee, to work with the US Army Corps of Engineers on the Charles River Watershed Committee. The committee, appointed by President Pusey of Harvard University, will attempt to find methods to end the pollution of the Charles.

Colombo's qualifications in this field are many. An avid sportsman, is a member of the Massachusetts Division of Fisheries and Game Administration Board. He is also a member of the Massachusetts Wildlife Federation Pure Streams Committee, and the Middlesex County League of Sportsmen's Clubs Pollution Committee.

Before moving to Wilmington late last year, he was a resident of Ashland where he served on the local Conservation Commission.

The Middlesex League of Sportsmen's Clubs recently presented him with its 35 year membership award.

Mr. Colombo writes a monthly column, 'The Beagle Corner' for Sportsclub Magazine, and collaborated on writing the book 'The Complete Beagle'. He owns some Beagles, but due to a recent illness, is unable to care for them himself.

Colombo is a retired Production Manager, having been employed by Publishers Book Bindery, Inc., of Winchester. He is the immediate past president of the Book Binders Guild of New England.

School Board endorses Regional Planning concept

The School Committee, in its meeting last Thursday endorsed a proposal for establishing a Regional Planning Center for the region served by the Merrimack Valley Superintendents Association, as submitted by the Chelmsford Public Schools, for the Merrimack Valley Superintendents. The proposal is made under the Federal law known as Title III, Elementary and Secondary Education Act (ESEA).

During the discussion preceding the endorsement Supt. of Schools Harold Shea reminded the Committee that they had voted last fall to participate in Education Mutual, a similar project, which proposes to establish a Supplementary Educational Center directed at improving educational opportunities and services in this area. Educational Mutual is an association of a number of towns north of Boston working in conjunction with the Burlington Campus of Northeastern University.

Chairman Arnold Lanni joined Shea in explaining the general purpose of these ESEA projects.

Under the provisions of Title III of the Federal Education Act of 1965 (Public Law 89-10) financial assistance is offered for planning and initiating operations of such centers throughout the country.

The goal is to provide educational services which cannot be provided economically or efficiently by individual school sys-

tems or communities. The proposals are normally written for a three year period and funded for one year at a time. There is a gradual reduction of federal aid which necessitates a greater involvement of local funds. The assumption is that when the federal funds stop the communities will be prepared to take over.

Some of the services these centers might consider and provide are: training of teacher aides, curriculum development, data processing, and special classes for those with particular problems.

Other Business

Mrs Fuller, cafeteria supervisor, was present to answer some of the questions which had been raised at the previous meeting.

William Fay felt that the last child served was entitled to get the same lunch as the first in line and asked why this did not always happen. Mrs Fuller said that following the menu exactly down to the last in line not only involves a great deal of waste but would also mean either an increase in the prices of the lunches, or a subsidization of the cafeteria.

There was further discussion regarding the lunch count at the High School. It had been noted that some of the lunch periods were more crowded than others. A suggestion was made that the scheduling be reviewed to see if a more equitable distribution could be achieved. Shea reminded the board that the Cafeteria had been built to serve a school population of 375.

Wesley Kobylak, Student Council President, submitted a rough draft of Student Council recommendations for a new dress code. Miss Diana of Student Council recommendations for a new dress code.

Miss Diana Imbimbo of the Committee raised questions of whether there should be a dress code, and if the recommendations shouldn't come from the whole student body.

Richard Keane asked if the administrative decision should not hold above all other decisions.

Keane moved for the adoption of seven new text books after Shea had concurred with the recommendations of the department chairmen, Joseph Beaton and Miss Farrello. The proposed School Calendar for 1967-68 was presented, and the board then decided to postpone decision to the next regular meeting.

It was announced that the Permanent Building Committee had

awarded the construction contract for the Woburn Street School addition to the Milk Street Construction Company of Boston.

A letter was read from the Wilmington High School Boosters, presenting scholarship funds to the Committee, and requesting permission to erect a new scoreboard at the High School field. The funds were accepted, but the scoreboard request was tabled for further information.

In an explanation of In-School Suspension, at the High School, the board were told that the current suspension means attendance at school, but suspension from regular classes.

NANCY

(fr p.6)
can't see any one when you go in it's because Flo is hidden behind the new red cash register. Peek through the cold cut case (and he'll have all the delicatessen goodies like his delicious potato salad and stuff) and you'll see her. Understand that they couldn't put the counter any lower because it had to clear the top of the case. This makes it fine for big Joe, but just a smitch high for Flo.

The grapevine says that Nancy Burke of Glendale Circle missed the Testimonial for Dr Fagan by about 12 hours. The event was the birth of a baby girl- the fourth for the Burkes on Tuesday night. It is told that she missed the festivities for Dr Lynch last year in the same manner. We better watch that. Maybe we could have the Banquets at the Hospital?..or the Hospital at the Banquets? Anyway, congratulations to the Burkes and we hope that mother and daughter are both doing fine!

The Cadette Girl Scout Troop 354 is planning a rummage sale. It will be held on May 13 at the Grange Hall. The money will be used for an excursion to explore Boston and add to their fund for a later trip to Washington, D.C., in 1969. If you have any articles for donation, please call Mrs Jean Foley 658-3713 for pickup or Mrs Barbara Carpenter 658-4279. This is a worthwhile event. Get the spring cleaning done.. and give it to these little gals. They're really trying hard.

Mrs Jean Foley and family wish to extend their thanks for the many cards and visits from friends and the Masonic Brothers of Friendship Lodge, which were extended to her father, Mr Marvin Russell Sr, who is now at home. Jean would also like to say 'thanks' to her friends and neighbors, who were so kind during the recent loss of her uncle.

While I have the opportunity, I want to compliment all of you folks in Wilmington on the way that you are such good neighbors to each other. For years this has been happening, as it has in all small New England Towns, but other towns have lost this touch, and it is really wonderful to sit in my chair and hear the stories of all of the small considerations and kindnesses that you give to each other. It would be great if we are able to develop this to capacity, and let it spread out to the neighboring towns, then states etc...That's the good old New England spirit.

Did you know - That Bill Hooper of Strout Avenue is now a member of the Wilmington Conservation Commission - that Thomas Williams and David Marshall have been recommended for Star Scouts - that Fay DeAvignon of 17 Church Street is recuperating from a recent operation at St Elizabeth's Hospital in Lowell, and would like

TOWN CRIER - WILMINGTON, MASS. MAY 11, 1967

General Electric facilities, and with personal interviews with the employees.

Bob, who lives on Middlesex Ave in North Wilmington, and is a guidance director at Billerica Memorial High School, was selected as one of the fifty outstanding counselors from high schools in the eleven northeastern states. Congratulations, Bob!

Dorothy Gaskill, of Beacon St., a senior in the Executive Secretarial program at Chamberlayne Junior College in Boston, was one of 200 students who flew to Montreal for their Senior Prom, last weekend, an event which was a part of the Diamond Anniversary celebration of the college.

She had, with the other girls in her class, a two day stayover in Montreal, visited Expo '67, and had their prom in Montreal's newest luxury hotel, the 38 story Chateau Champlain.

St Dorothy's Church held its First Holy Communion on April 22nd, Holy Mass was served by Father Leahy also Communion to First Communicants was given by Father Leahy. Father Darcy assist

(Next Column)

ST THOMAS CHURCH

Masses: Sunday-7, 8:15, 9:30, 10:45, 12:00 and 5 pm. Weekday 6:45 am (Saturday 7 am).

School of Religion: No class this week because of Solemn First Communion Children in Elementary grades are reminded to finish up their art projects by next week.

Saturday: Solemn First Communion; Class this Thursday from 3:30-4:30. They will get their robes on Thursday.

Saturday: First Communion Mass at 9. Children are asked to be there at 8:30, At Villanova Hall. After Mass they will be served breakfast by the CDA. This does not bring to an end the 2nd-grade program. Because of early Solemn First Communion, they will continue with the other Elementary children till June 10, promotion day.

Ushers: Additional ushers are needed. Phone 657-7886, Lou Kleyen.

Coming: May 19, Friday-Town wide Blood Donor Drive, sponsored by the Masons and K of C members. A donation of blood will guarantee a supply to your family if a need arises.

May 21-Trinity Sunday and May Procession. June 19-Entrance and Scholarship Exams for B.C. Evening School.

Next Sunday: May 14, Mother's Day-your reception of Holy Communion in her honor is your best tribute. After all Masses, except 12 noon, A family breakfast run by the Holy Name for their Scholarship Fund. Price: Family of four, \$3.00; each additional child 50¢, maximum charge for a family is \$5. Menu: Juice, scrambled eggs, ham, sausages, rolls, butter, coffee, tea or milk. 'Take Mother out on Mother's Day'.

to hear from her friends - that the Sons of Italy dance at the Grange Hall was such a success that they are holding another on June 3 at the same place. Reservations are with Fran Gray at 658-9454 because tickets are limited - and do it before May 25, - that Ethel Hardy is home from the hospital, and is thanking her many friends and acquaintances for the flowers and cards she received. She is much better, thank you. That Mrs Cora Flint, the mother of Mrs Alexander Goldsworthy of Church Street fell and broke her hip on May 1st and is on the Winchester Hospital recuperating from the operation last Friday. Mrs Flint is 94 years old, but is recovering very nicely and is in the best of spirits.

Larry Cushing, the Athletic Director of the Wilmington Schools is a patient at St Johns Hospital, in Lowell, recovering from an hernia operation, and Tuesday evening some of the Doc Fagan committee, headed (in efforts at least) by Lil Woodside of the Wilmington Center Pharmacy took up tape recordings and pictures of the Doc Fagan Day in Wilmington, so that Larry could get it all nearly first hand.

They are planning a big Spring Festival at the Methodist Church on May 20, from 10 am to 4 pm. There'll be a Doll Carriage parade with Mrs Robert Brown in charge at 11:30 am and movies for the kids at 1:15 pm in the Roberts House, with only a 15 cent admission charge.

A smorgasbord luncheon is to be served at 12:15, but reservations must be in by next Monday, because tickets are limited. The luncheon is \$1.50 per person. Make reservations with Grace Ball at 657-7414. And, the Junior MYF will be having a car wash in the parking space, so you can have your car washed while you are attending the festival.

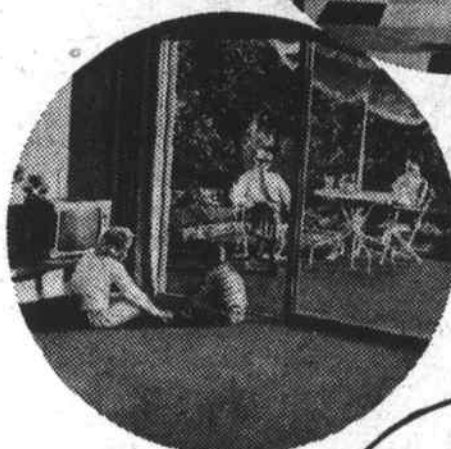

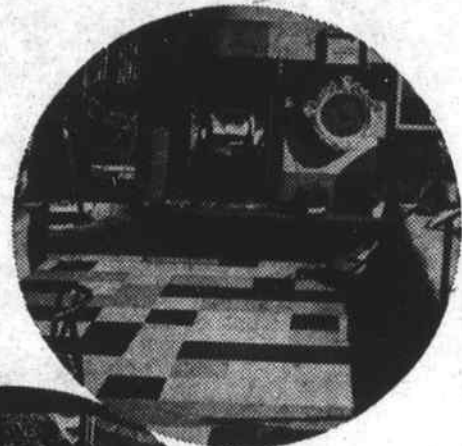

Larry Marcy is in Fort Hood Texas. He has been promoted to PFC and was transferred from Ft Jackson, S.C. His dad says that he is cooking for 400 GI's and wants to be remembered to his friends. (Perhaps the class of 1965 has a chef for their reunion. Mark that up, kids!)

The annual Clean Up, at Camp Forty Acres will continue Saturday starting again at 8 am. Bring your hoes and rakes, please!

By the way gals, I have forms to help with reports on weddings. If you are inclined that way why don't you stop in at the Depot for some help in getting the story into the paper. If I'm not around you will find them on the counter.

Bob Mullarkey has been awarded a General Electric Foundation Summer Fellowship in Guidance, at Boston University. It is for six weeks, with all expenses paid. He will be making a study of occupations and careers through trips to

MORRIS
(Fr. Fr. Pg.)

those who had a chance to observe him as being 'someone they had known before'.

Some of the Town Hall employees spent several minutes debating the question as to whether or not they had seen him - or his double, in the past. They could not decide.

A tall man, well built, he seems to be the picture of a star athlete of fifteen or twenty years ago, from say, the football line at Notre Dame. It is this appearance which gives observers the feeling that they have seen him before.

Morris was appointed Town Manager in a special meeting of the Board of Selectmen Saturday afternoon, after it had been learned that Melzar would shortly be leaving for his usual summer in Maine. Selectmen Miceli and Black made a special trip to St. Albans Wednesday, to ask people in that place questions about Morris. They reported to the board on their findings Saturday.

Morris had previously been interviewed in the Wilmington Town Hall.

Selectman Black told his fellow board members that he had gone to the Masonic Hall, and had talked with business men of St. Albans, plus a retired business man, and some bankers. He reported that everything he heard was praiseworthy, nothing was detrimental, and that the men were sorry to have Morris leave St. Albans.

Miceli said he had visited the realtor's offices, and had talked with an assistant manager of a Grant's Store, as well as with a man at the local Union Carbide plant. He had heard nothing but praise.

Based on the reports, Mr Black moved that Morris be appointed Town Manager of Wilmington. The vote was four in favor, and Niles voting 'present'.

The salary was then discussed, and Selectman Boylen moved that it be set at \$14,000 a year. Mrs Drew seconded.

Black said that it should be set at \$12,400 plus \$600 expense money as this was the salary that had been requested by Mr Morris. Niles agreed with Black that this was the best way to set the salary, pointing out that Mr Morris was receiving \$10,000 at St. Albans, and that a \$3000 raise was substantial. He also protested that the \$14,000 salary should have been set a long time ago, if that was the intention of the board, for other potential candidates to know about.

Mr Miceli joined Boylen and Mrs Drew in voting for a \$14,000 salary. Expenses were set at \$900 a year. Both Niles and Black voted against the salary and the expenses.

The question of military leave was discussed, because of the Army Reserve status of Morris. It was voted unanimously that if Mr. Morris' military salary should prove to be less than his salary as Town Manager the town would pay the difference. It was also voted unanimously that the town would not consider military leave as vacation time.

The board also voted to pay the moving expenses for Mr. Morris.

PERSONAL AND PROFESSIONAL RECORD OF STERLING C. MORRIS

I have completed four and one-half years academic training and eleven years of profitable experience in administrative management with principal emphasis on budget making, planning, administrative research, department organization and personnel administration.

Planning, I believe, is the core of successful municipal government. I have promoted and procured comprehensive planning programs in both Camden, Maine, and St. Albans, Vermont. The results have become a workable guide for the future development in each case. I pioneered regional planning in Maine and Vermont.

My primary objectives in this field are to develop a community's ability to attract and expand job opportunities and build a future for the young labor force.

PERSONAL DATA

Born in Houlton, Maine on February 14, 1925, have no physical defects and enjoy excellent health. I am married and two children. I am six feet tall and weigh 210 pounds.

FORMAL EDUCATION

I attended high school in Bangor, Maine and Mt. Hermon Academy in Northfield, Mass., the largest independent secondary school system in the United States.

I graduated from the University of Maine in 1950 with a B. A. degree in Public Management. The course is one of the few in the country designed specifically to train municipal managers. Courses taken other than the natural and social sciences include: public finance, administration, planning and zoning, public accounting statistics, public speaking, debating, principles of economics, constitutional law, political science, plane surveying, survey and earth works, highway engineering, sanitary engineering and machine drafting.

I attend the school for managers each year under the New England Town and City Managers Institute at the University of Maine, and

regional conferences of professional associations.

MANAGEMENT EXPERIENCE

A. Manager of Warren, Maine Pop. 2,000--Rural and Diversified. The first community that I served (1955-57) was the Town of Warren.

The programs conducted by me included: a new system of assessing, installed Martell System of record keeping, wrote a comprehensive insurance program on both employees and town owned equipment, produced a 4 x 5 foot official map for the planning committee, engineered and constructed a new channel between a river and lake, using 1700 pounds of dynamite for the purpose of improving local fishing and recreational activities.

I built many highways and bridges, started a regional community road surfacing program

Death

STEVE SHANNIAK
DIED SUNDAY AT 84

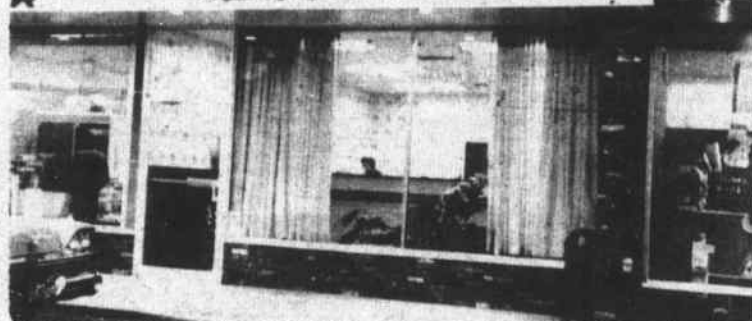

Steve Shanniak, 109 West Street passed away suddenly at the St. John's Hospital, in Lowell, on Sunday May 7th.

Born in the Ukraine 84 years ago, he had lived in Wilmington for the last 50 years, and the last 19 on West Street. Mr. Shanniak is survived by his wife, Mabel A. (Young), a son Paul, of Malden and Mrs. Julia Bodnar of Woburn Street. There are three grandchildren, Michael P. and Ronald S. Bodnar, and Richard Shanniak.

Retired a number of years ago from the Monsanto Chemical Co., he was a member of the Quarter Century Club of Monsanto.

Funeral services were held from the Nichols Funeral Home, 187 Middlesex Ave yesterday at 9 am with the Rt. Rev. Eugene Surville, Rector of the Holy Trinity Russian Orthodox Cathedral of Boston officiating. Burial followed in Oak Grove Cemetery, Medford, with Rev. Surville conducting prayers.

245-2505

which cut our cost in half from the previous years, wrote Warren's first detailed budget report and received a 'Superior' rating from the State of Maine on the Annual Reports while in Warren. I enjoyed working in the rural community.

B. Manager of Camden, Maine Pop. 4,000--Resort and Residential

I was asked by the Selectmen to apply for the job.

I served in Camden (1957-60) and consider my accomplishments here as follows: widened and rebuilt the main street and sidewalks revaluation of all personal and real property to re-align the equitable distribution of taxes, started an intense public educational program in fire prevention and Maine's first house to house fire inspection program (total property loss in 1958 was \$2,200.00), organized the Camden Civic Association which promoted many civic projects as well as good will, wrote Camden's first performance type annual budget report.

I started a planning board, organized the first regional planning commission for the County, established a capital improvement program, set up an equipment revolving fund on all public works equipment, promoted the revitalization of Camden's harbor with a \$100,000.00 Federal financed project and encouraged a Comprehensive Master Plan.

C. City Manager, St. Albans, Vermont--Pop. 9,000--Commercial and Diversified--Shopping Center and County Seat

I came to the City in 1960 after being solicited by the Manager's Selection Committee of the City Council.

Projects undertaken in St. Albans were: Installed central purchasing, started cost accounting on all city owned equipment, instigated a comprehensive planning program, produced a tabloid type City Report that is distributed to all taxpayers and set up machine accounting to produce monthly financial statements.

I replaced free fire protection for adjacent communities with a paid system that produces \$8,400.00 income per year, established a new sub-division code, wrote an employee retirement system (considered to be the best in the state), helped to locate a new shopping center within the City Limits, invested idle funds in short-term notes, completed a residential and commercial reappraisal of all real estate by hiring a full time appraiser, revised accounting classification and code system and started monthly department activity reports.

I discovered a major deficiency in the water works system of the City which was costing, annually, an additional \$7,000.00; started a program of substandard housing cleanup, up-dated and compiled the City Charter, rewrote all of the city ordinances, cut fire loss 62 percent in one year by selling a fire inspection program and the new city appraisals of property are

THE MORRIS FAMILY: In a photograph taken last Christmas. L to R: Judy, 15, Mrs. Justine Morris, Pamela, 12, and Sterling Morris

the most accurate in the State as a result of the State's sales ratio studies conducted annually.

We established a city urban agency, became the first city, joining with the State of Vermont, to enter electronic data processing with a computerized system; replaced all street lights with mercury vapor lamps, abolished a property tax discount system which saves \$15,000.00 yearly, wrote a comprehensive hospital, medical, accident and sickness and life insurance plan for City Employees and we are now drawing final plans and specifications, with federal funds, for reconstruction and improvements of our sidewalks, streets, storm and sanitary sewers and water system.

UTILITIES EXPERIENCE

a. SEWER FACILITIES

The City has its own Primary and Secondary Water Pollution Control Plant. I participated in its construction phase in 1960 and have been making minor improvements to it over the past six years. The plant chief provides me with a daily record of rainfall, sewage flow, PH of effluent, chlorination dosage, volume of sludge, gas production and electricity used. We also have one underground sewer pumping station in the City which I recently tied into our Gamewell Fire Alarm System for faster response on pump failure.

b. WATER FACILITIES

We have an extensive water supply system with three gravity flow reservoirs located seven miles East of the City and a complete pumping operation from Lake Champlain located seven miles West of the City with a million gallon storage tank in the City. The pump operations of the lake system are on telemetric controls next to my office. I have introduced extensive changes in the water works such as; the installation of standby pumps at each pumping

station, utility cost accounting, full-time maintenance program, complete overhaul of all water meters; all of which has been reflected in a very good financial position for this utility. We do all billing on an I.B.M. 1401 series computer.

MILITARY EXPERIENCE

A. Enlisted man WW II. Two and one-half years in the Army Air Force. I was a top turret gunner and flight engineer in a B-24 heavy bomber in the 11th Air Forces, stationed in the Pacific Theatre. Highest rank held was Staff Sergeant. We were shot down in the Pacific, became POW for six months and escaped through Tehran, Iran.

B. Commissioned Officer in 1949, I completed the Advanced Reserve Officers Training Course at the University of Maine and became a 2nd Lt. in the Civil Affairs branch of the U. S. Army. I have eighteen years experience in the service. I am presently a Captain on the General Staff as Supply and Equipment Officer of the 1st Battalion of the 172nd ARMOR of the Vermont National Guard. I am a Major in the U. S. Army Reserves.

DIGITAL SYSTEMS ENGINEER

Compugraphic manufactures a family of special purpose digital computers for commercial applications. Our sales have been growing at an average rate of growth of over 50% per year for the past six years and our rate of growth is increasing.

The computers that we now build use discreet components, and we want to prepare for a transition to IC technology. To this end, we are looking for a highly qualified electronic engineer with experience in the logical design of medium-sized systems who has had substantial design experience with integrated circuits.

To arrange for an interview
 please call Personnel at 944-6555.

JANICE M. DUFFINA CHOSEN
'MISS BOSTON AREA GIRL 1967'

The Boston Area Club officers
announced today the selection of
Miss Janice M. Duffina, daughter of
Mr and Mrs Raymond F. Duffina of
14 Oakdale Rd., as their queen for

1967. Miss Duffina was chosen from
a large group of aspirants represent-
ing Federal Aviation Administra-
tion Social Club members
throughout the entire New England
and upper state New York Area.

Janice is 20 years old, 5'1" has
hazel eyes and black hair, other
than being the Secretary of the
Chief Budget/Management Branch
located in the Northeast Industrial
Park, in Burlington, Janice finds
time to participate religiously in
her outside interests of skiing,
tennis and skeet shooting.

Miss Duffina will be crowned,
'Miss Boston Area Girl' at the
Club's annual Dinner-Dance, to be
held on May 19th, at the Cottage
Crest in Waltham.

ISN'T IT NICE to be able to 'Come As You Are' to the
Shamrock - Whether you pop right out of your kitchen (Curlers
and All) or drop by on your way to visit (All horsed up)?

You're NEVER out of place at the Shamrock, because it's
just that kind of an informal place to shop.

AND YOU KNOW, GALS, one of the many nice things we
hear so often is: 'Isn't it Pleasant and Easy to Shop at the
Shamrock - and isn't everyone so cordial and so courteous?'

And that's the way it should be! It's just one more reason
why the Shamrock has been building its very own Loyal
Following for More Than 10 Years now, with So Many New
Faces coming into view every day of the week.

THERE MUST BE A REASON !
